Dear Parents,

In pursuit of the celebration of National Reading Day on 19th June 2024, the CBSE Board is planning to attempt to achieve the Guinness World Record for “the most children reading at one time”. This activity will be done on the CBSE online technology platform “CBSE Reading App” by Freadom.

- Reading exposes children to a wide range of vocabulary and sentence structures, which helps them develop stronger language skills.
- It stimulates critical thinking, imagination, and problem-solving skills. It encourages children to ask questions, make connections, and explore new ideas.
- Reading fiction allows children to step into the shoes of characters from different backgrounds and cultures, promoting empathy and understanding of others.
- Proficiency in reading is often linked to academic success across all subjects. Children who read well are better equipped to understand and absorb information presented in textbooks and other learning materials.
- Exposure to different stories, genres, and writing styles sparks creativity and fosters a love for storytelling and expression.
- Reading teaches valuable life skills such as patience, concentration, and perseverance. It also provides a healthy outlet for relaxation and stress relief.

THE DELHI WORLD PUBLIC SCHOOL, KOMPALLY urges the students to participate by following the guidelines below.
